- Graduated with Honors
- 3x Class President

Experience

Family size and redistribution

Maastricht, The Netherlands

Thesis

Sept 2024 - Jan 2025

The thesis aimed to study the desired level of (monetary) support for the funding of family policies and relate it to the values orientations of participants regarding family life. The data was collected by means of a Qualtrics survey and the small experiment was composed of 4 different spectator games.

Skills Developed: Research, R, Qualtrics

Scope Maastricht

Maastricht, The Netherlands

Study Association

Feb 2024 - Aug 2024

Database Committee

- Set up a Microsoft Azure Database
- Data Cleaning with R and Excel
